DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 20 June 2006 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the foreign references referred to therein have not been considered.

Drawings

The drawings are objected to because the root teeth must be specifically shown. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will

Art Unit: 3671

be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The abstract of the disclosure is objected to because the discussion with respect to the prior art should not be placed in the abstract and because it includes legal phraseology (i.e., "said"). Correction is required. See MPEP § 608.01(b).

Claim Objections

Claims 1, 4, 6 and 10-12 are objected to because of the following informalities: recitations of "its" should be replaced with a recitation of a specific term, due to the equivocal nature of the term; and "the comb teeth" (claim 1, line 7) and "the root teeth" (claims 10-12) lack proper antecedent basis. Appropriate correction is required.

Allowable Subject Matter

Claims 1-12 would be allowable if rewritten or amended to overcome the objections set forth in this Office action.
